

HOW TO FIND SEPTIC PERMITS AND PLANS FOR PROPERTIES IN DESCHUTES COUNTY

Go to <https://dial.deschutes.org> or click on the convenient link found throughout the website.

From the Deschutes County Property Information page

In the Search field:

>>Type your [house address numbers](#)

>>>Press Enter

>>>The results for properties with those house numbers will appear

Click on the results that matches your property's street address

>>The Summary will appear

>>On mobile

After the results appear, click on Menu the full menu will appear

On the left side, click on the Development button

>>The Development Summary will appear

On the left side, click on Documents

>>The Documents screen will appear

Scroll down and look at Document Type then look for Environmental Soils

Click on the View Document link to the right of Environmental Soils

>>Any documents that are on file will appear.

You can expand the screen by clicking on the blue arrows on the right side of the document or you can print it as a .pdf by clicking on the printer icon.

NOTE:

If there is no Map or Taxlot number next to the result, you will not be able to access the next step. If so, contact Deschutes County by phone.
